Online Education

1. Does all programs/courses were completed on time.	Yes		
2. Measures taken to complete the syllabus of courses and programs.	<p>WUD moved into the online mode a week before the national lockdown was announced and continued the academic schedule without breaking a step. WUD was perhaps the only university in the country which completed its academic year on schedule, ensuring admissions, regular classes, examinations, evaluations, graduate shows, placements & internships and even student cultural fests online. The best example of how WUD implements critical thinking, innovation & creativity, and managed its resources efficiently is the way WUD handled Covid.</p> <p>The following actions were taken, and innovations made:</p> <ul style="list-style-type: none"> •It was ensured that all faculty members are equipped with laptops (with camera). Google Meet & Zoom were loaded, their profiles made, and short training held to make them familiar with the platform. The faculty in-turn repeated this with their student cohorts. Those without laptops were helped to do it on their smartphones. •The whole teaching-learning pedagogy was re-tuned for an online interaction with faculty and students holding practice sessions. •We moved completely on online meeting platforms for conducting classes a week before the lockdown and made email/WhatsApp groups for ease of communication. •As a short-term measure we moved immediately to Coursera to offer a selection of courses for each specialization with ~95% completion rate of the courses taken. •Submissions were made on google classroom; Jury were held as planned. Students were trained to work on collaborative platforms for group projects. •Collated and shared with students, links to online resources of books, magazines, periodicals, blogs etc for complementary & supplementary learning •Students were made available the catalogue of all stationary material by creating a google sheet where list of materials was provided by faculty and instructors along with the links where they could be procured linking it to the e commerce sites. •Online workshops, Guest lectures and seminars were held online. •University provided Field/industrial visits and outdoor location visits to various cohorts through 'walk-throughs' of the site by a student/faculty living nearby and live sharing on Google Meet.
